in Austria.

**Prim. Doz. Dr. Herwig Pokorny, FEBS**

Franziskus Hospital  
Head of Department of Surgery

**FRANZISKUS SPITAL**  
der Elisabethinen und Hartmann Schwestern

# Advanced Hernia Repair

## Description

This course is intended to transfer practical experience of principles used in complex hernia cases. Re-TAPP, eMILOS, including possible Component Separation Techniques (e.g. TAR,...) are techniques regarded as complex in hernia surgery. The aim of the workshop is to demonstrate both, theoretical principles and practical implementation for these complex but highly interesting hernia operations.

## Adressed to

This program is designed for advanced surgeons who are currently performing complex hernia procedures and have an expertise in laparoscopic procedures.

## Location

**Franziskus Spital Margareten**  
Abtlg. für Chirurgie  
Nikolsdorfergasse 32  
A-1050 Wien, Austria

## Objectives

By attending this course, participants will:

- Gain insights on the safe approach of treating complex hernia cases.
- Acquire current knowledge and the optimal management strategy for each patient (tailored approach)
- Learn to manage difficult scenarios and understand how to address potential complications

## Accommodation

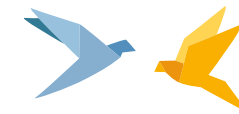

**Hotel Penta Wien\***  
Margaretenstr. 92, A-1050 Wien  
Tel. +43 1 / 546 86 100  
<https://www.pentahotels.com/de>

## Capacity

The number of active participants will be **limited to 5 HCPs** to allow an active participation from everyone.

Questions, comments and personal experience sharing are welcome and will enhance the learning experience.

**FRANZISKUS SPITAL**

der Elisabethinen und Hartmann Schwestern
